

RIDER SWITCH

Disney World Parks

STEP ONE:

First check with a Cast member to see if Rider Switch is offered at the attraction in question.

STEP TWO:

Once at the attraction, approach the greeting Cast Member with your entire party. At least one adult member of your party and the Guests who are not riding will be issued a Ride Switch entitlement by the Cast Member and asked to wait in a designated area (usually outside of the attraction). This group is "Party 2."

STEP THREE:

The other party members ("Party 1") ride the attraction, by waiting in the normal queue.

STEP FOUR:

After riding the attraction, Party 1 locates Party 2. Then, Party 1 takes over supervision of the non-riding children or Guests.

STEP FIVE:

Party 2 enters and boards the attraction without having to wait in the regular queue a second time. The Rider Switch entitlement must be validated by a Cast Member at this time.

BONUS:

Please note that if the person in party 2 waited alone with the child or non-riding Guest, one Guest may join the person that waited alone.

RIDER SWITCH

Disney World Parks
